***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 17-23 and 32, drawn to a method of molding a reinforced nodal structure.

Group II, claim(s) 24-27, drawn to a machine for laying down reinforcement for a composite molded nodal frame structure.

Group III, claim(s) 28-31, drawn to an elongated cored reinforcement for a composite molded article.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: All the groups are directed to an article, apparatus and a process useful in the general field of a composite molded article. Group I has a special technical feature directed to the channels of a nodal mold not required for Groups II-III. Group II has a special technical feature directed to a feeder head not required for Groups I and III. Group III has a special technical feature directed to an

envelope of fibers surrounding a core of expansible material not required for Groups I and II.

A telephone call was made to Daniel Kim on 08/15/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
